## Fun By The Numbers

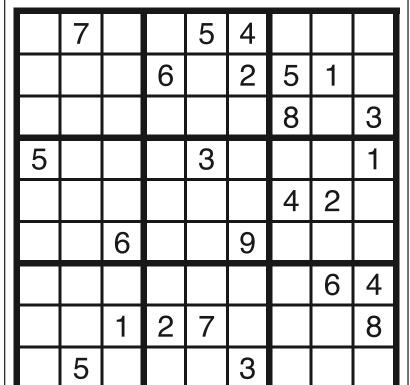

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it

gets to solve the puzzle!

The T-bone is a thick cut to give you more bone-in strip and butter-tender Filet Mignon for even the heartiest of appetites, while the Rib Crown is carved from the most prized part of the Ribeye and is known for exceptional marbling, flavor and tenderness. Both cuts are grain-fed, aged to perfection and flash-frozen to capture freshness and flavor. Omaha Steaks make the perfect gift, so you can confidently ship them directly to your favorite fellow or grill them up for him at home.
